■ <u>Solution</u>:

Yes, user is able to modify DrawDAQ default DRW page.

DrawDAQ -> File -> Save As Preference.

User may add text, pushbutton, alarm info and other objects to DRW page and save it as the default DRW page. For example, we are going to create a default template page by copying parts of alarm summary, creating several text objects and push buttons. E.g.

Advantech DrawDAQ - untitled.drw (Monator-Systems_Sites)

Enabling an Intelligent Planet

1. Change background color

Open a new DRW page and change its background color

😤 Advantech DrawDAQ - untitled.drw [test_scada]
File Edit View Setting Draw Dynamic Tools Help
2 2 3 4 4 5 2 3 4 5 2 3 4 5 2 3 4 5 5 2 5 5 5 5 5 5 5 5 5 5 5 5 5 5 5 5
Color Palette
R:224 G:224 B:224 Palette Index: 158

2. Alarm Summary:

Open another DrawDAQ, then retrieve Alarm Summary template file (almsum.dxx) and copy first three alarm info rows, then paste to a step 1 DRW page.

Open almsum.dxx
