Advantech AE Technical Sharing Document

## Problem Description:

In many application environments, customers use the touch screen to input text, and the default does not have the physical keyboard and mouse. In this FAQ, we will show you how to enable the soft keyboard through the settings.

# ■ Brief Analysis and Solution :

#### Step 1.

Onboard Preferences  $\rightarrow$  General  $\rightarrow$  Auto-show when editing text

<b>*</b>	Onboard Preferences	- +	×	
General Window Layout Theme Snippets Keyboard Auto-show Typing Assistance Universal Access	General  Show/Hide options  Auto-show when editing text  Start Onboard hidden  Desktop Integration  Show floating icon when Onboard is hidden  Show when unlocking the screen  Show tooltips  Show status icon Status icon provider: Auto-detect
