Date	2015 / 04 / 13	SR#	1-2042604668
Category	☐ FAQ ☒ SOP	Related OS	N/A
Abstract	ADAM-60XX and ADAM-62XX_The protocol and port number of ADAM		
Keyword	ADAM-60XX, ADAM-62XX, Port Number		
Related Product	ADAM-60XX and ADAM-62XX		

■ Problem Description:

This documentation explains the protocol and port used in different function of ADAM-60XX and ADAM-62XX series

■ **Brief Solution - Step by Step:**

Please refer to the following table, for different function, we have different protocol and port number.

If the customer needs to develop their own API, they need to set these parameters correctly.

Function	Protocol	Port
Modbus/TCP	TCP	502
Download	TCP	5450
Configuration upload	TCP	5452
Web server	TCP	80
Search the module in the utility	UDP	5048
ASCII command	UDP	1025
P2P/GCL	UDP	1025
Data stream	UDP	5168
GCL remote message	UDP	5168
