Abstract	UNO-2184G HDMI and Display Port are not working		
Keyword	HDMI ,Display port are not working		
Related Product	UNO-2184G		

■ **Problem Description:**

DVI port is able to work but when customer change to HDMI or Display Port, the monitor shows no display.

■ **Brief Solution - Step by Step:**

You may shut down again when you change the display mode.

Like PS2 keyboard, the BIOS will set up the environment before enter the OS.

It is unlike USB , it cannot be changed anytime.
