| Abstract | Configure the SaperaLT Driver for Inspector PRO | | |
| Keyword | SaperaLT, InspectorPRO, Camera configuration | | |
| Related Product | AIN-USB-PR | | |

■ **Problem Description:**

To configure the Genie cameras, you must configure SaperaLT driver.

■ **Brief Solution - Step by Step:**

A. Install Essential Software

1. InspectorPRO(either x64 or x86)
2. Sapera CamExpert
3. License dongle
4. Genie driver

B. Setup step

1. Check Windows UAC setting. If the setting is high, please set to the lowest one.
2. Connect the cameras to the system.
3. Configure the IP and subnet Mask.
4. Open Sapera Acquisition Wizard, this will configure the SaperaLTDrv.ini automatically.
5. If your IP configuration is correct, the camera will be detected by wizard. Click “save” to save the configuration.
6. Open InspectorPRO and enable SaperaLT driver in Acquisition options. Restart the software, the change will be applied to InspectorPRO.
